THE STOELZLE GLASS GROUP IS A FAMILY RUN COMPANY WITH FIVE EUROPEAN AND ONE AMERICAN PRODUCTION PLANTS.

With more than 200 years of experience, the Group produces high-quality glass packaging for the spirits, pharmaceutical, perfumery & cosmetics and food & beverage sectors. Stoelzle covers all areas from product development, design, decoration, as well as closures for your glass products.

Our glass experts are committed to developing the perfect bottle for each dedicated product, turning ideas into a bottle which fits the vision.

STOELZLE SPIRITS IS AMONGST THE WORLD'S LEADING MANUFACTURERS OF PRESTIGE BOTTLES FOR PREMIUM SPIRITS AND LIQUORS.

STOELZLE LAUNCHES A BESPOKE LINE OF PREMIUM STANDARD BOTTLES.

With three unique tiers, the ECO, STATUS, and HERITAGE Lines, the one-of-a-kind designs will ensure your product stands out.

Our goal with this new line is to offer distinctive and virtuous design, beautiful and functional, responsible and useful, but inspired by our very own international customers.

DESIGN, DECORATION AND CLOSURES:

A ONE-STOP SOLUTION

Our unparalleled team of designers work closely with clients to bring their ideas to life. Using state-of-the-art glass decoration technologies and quality materials, the design journey is customised to our client needs from start to finish.

Whether it is a full packaging solution or product development, be it bottle, brand, labelling, stoppers and exclusive touches, we can fulfill all design needs.

A wide range of decoration techniques are available to elevate your design to sit at the top of the market. Ranging from screen printing, acid etching, and accessory application to environmentally conscious approaches like eco-friendly powder coating, we encompass a comprehensive array. Our services extend to minimum order quantities of 2500 pieces per decoration.

DOING MORE WITH LESS

ECO LINE

The main feature of ECO Line is simplicity, purity and singularity of shapes. Drawing inspiration from Japanese design and the craft movement, it embodies thoughtful and authentic design principles. This category includes the KYO, KOBEL, AZUR and YUMI glass bottles.

SOMETHING FOR EVERYONE

STATUS LINE

Cylindrical or square, low or tall, with or without thickness of glass at the bottom, almost everything is possible. The STATUS Line has a less constrained creative field than the ECO Line, but requires equal inventiveness, harmony and sense of measure.

The focus of the STATUS Line is that the design is universally relevant in its form and in its expression. This Line includes the NELSON, ICE, STERLING, LUX and COSMO glass bottles.

LUXURY FOR THOSE WHO SEEK IT

HERITAGE LINE

The HERITAGE Line aligns with the categories of super-premium and ultra-premium products.

The power of the design is prevalent, ensuring the visual quality of production of the decanters is key. At the same time, the LUCA glass bottle is exclusive to the HERITAGE Line and introduced as a lightweight decanter at 850 g instead of the usual 1110 to 1150 g.

Volume	700 ml
Weight	490 g
Height	183.5 mm
Size / Ø	99.2 mm
Neck finish	Cork – MTB Ø 18 mm

ECO LINE
KYO

LOW PROFILE, HIGH STYLE

This Apothecary-style bottle has been reimagined with delicate lines, precise proportions, and meticulous attention to detail. It features a gracefully rounded shoulder, a short neck, and a subtle push-up. The KYO bottle has a weight of 490 g.

Volume	700 ml
Weight	490 g
Height	165.4 mm
Size / Ø	101.9 mm
Neck finish	Cork – MTB Ø 16 mm

ECO LINE

KOBEI

FUNCTION AND POETRY

The Japanese artistic movement MINGEI has profoundly influenced the KOBEI bottle, not only in its style but also in its spirit: natural, sincere, confident, and simple. KOBEI combines a rounded shoulder and clean break with a softly contoured conical body, complemented by a pointed push-up—a harmonious interplay of contrasts. The KOBEI bottle has a weight of 490 g.

Volume	700 ml
Weight	490 g
Height	225.8 mm
Size / Ø	79.9 mm
Neck finish	Cork – MTB Ø 18 mm

ECO LINE

AZUR

KEEPER OF THE COOL

AZUR is the archetype of a cool design focusing on functional usage and simplicity of line, underpinned by low-key, eye-pleasing lines. Standing at a medium height, AZUR is characterised by its slender shoulders and a body gently rounded at both ends. The AZUR bottle has a weight of 490 g.

Volume	700 ml
Weight	490 g
Height	174.9 mm
Size / Ø	104.8 mm
Neck finish	Cork – MTB Ø 16 mm

ECO LINE YUMI

CLARITY AND SIMPLICITY

The first thing that strikes the eye is the highly pared-down style combined with a subtle expressiveness. Here, everything is a matter of good measure, a slightly tapered body, a short neck, and a very pointed push-up. The YUMI bottle has a weight of 490 g.

Volume	700 ml
Weight	750 g
Height	227.7 mm
Size / Ø	86.1 mm
Neck finish	Cork – MTB Ø 16 mm

STATUS LINE

NELSON

MODERN AND TIMELESS

At the first moment, the NELSON is eye-catching. The model then achieves the feat of being both resolutely modern and timeless. Just this once, the conical neck with a small groove at the base and the particular shape of the ring are major aesthetics arguments. The NELSON bottle has a weight of 750 g.

Volume	700 ml
Weight	750 g
Height	196.7 mm
Size	83.9 x 83.9 mm
Neck finish	Cork – MTB Ø 18 mm

STATUS LINE

ICE

NECESSARILY PURE

The curved faces, and the rounded contours of the shoulder and of the base soften the sharp edges of the angles. The short neck and the ring give the bottle a discreet vintage look. These details give the bottle a subtle and contrasting character. The ICE bottle has a weight of 750 g.

Volume	700 ml
Weight	750 g
Height	166.5 mm
Size / Ø	104.8 mm
Neck finish	Cork – MTB Ø 18 mm

STATUS LINE
STERLING

FOLLOWING THE CURVE

With STERLING, it is essential to follow the curve, just the curve and the simplicity of harmonious shapes that caress the eye and rest the mind. The shape is inviting to grasp it, weigh it, to judge its contours. STERLING transmits its message in silence, without superfluous speeches. The STERLING bottle has a weight of 750 g.

Volume	700 ml
Weight	750 g
Height	288.7 mm
Size / Ø	72.3 mm
Neck finish	Cork – MTB Ø 20 mm

STATUS LINE

LUX

‘FIAT LUX ET LUX FIT’ (LET THERE BE LIGHT, AND THERE WAS LIGHT)

Bold and elegant, the LUX bottle seduces with its minimalist character. Return to simplicity and functionality on the basis of three creative principles: a cylindrical body, a pedestal in full glass, and a large neck. Radical freestyle. The LUX bottle has a weight of 750 g.

Volume	700 ml
Weight	750 g
Height	309.9 mm
Size / Ø	70.8 mm
Neck finish	Cork – MTB Ø 16 mm

STATUS LINE

COSMO

SLENDER AND SLENDER

COSMO breaks the codes with its atypical proportions: a very slender body surmounted by a short neck and a minimalist ring. The thickness of glass at the bottom, animated by a discreet push-up, contributes to the stability while giving the model its selective status. The COSMO bottle has a weight of 750 g.

Volume	700 ml
Weight	850 g
Height	141.2 mm
Size	156.5 x 77.8 mm
Neck finish	Cork – MTB Ø 18 mm

HERITAGE LINE

LUCA

HARMONY AND CONTRASTS

In glass design, inspiration often revolves around the notion of contrasts. At first glance, the LUCA decanter presents a powerful and compact one-piece design. Looking closer, we discover a harmonious arrangement of straight horizontal, vertical and curved lines giving the model simplicity, strength and fullness. The LUCA bottle has a weight of 850 g.

THE RIGHT BOTTLE CLOSURE EXENTUATES BRAND IMAGE AND OFFERS VERSATILE FUNCTIONALITY.

It serves as a security seal for the first opening, protects the contents and ensures easy handling when opening and trouble-free re-closing. All closures and caps are customised to every product, freely selectable in shape and type. With the suitable neck finish, we ensure that the desired closure harmonises with the packaging, protecting the product as best as possible.
